

# Sorting Center: SHAPES

This image displays a sorting center for shapes, featuring two main categories: circle and square. Each category has a set of cards with various objects and a corresponding label card.

**Circle Category:**

- Clock
- Wheel
- Pizza
- Button
- Coin
- Label: circle

**Square Category:**

- Window
- Collage
- Cheese
- Checkerboard
- Picture
- Letter C
- Label: square

Each card is decorated with a scalloped white border on a black dotted background. The label cards are larger and feature a thick colored border (pink for circle, yellow for square). Small "chalk•dots © 2018 All rights reserved." logos are present on the bottom right of the label cards.

# SORTING CENTER: SHAPES

This hands-on activity is a fun way to help your children recognize and sort shapes. Print out the shape headings and shape cards on white cardstock. I like to laminate them before I cut them out so they are more durable and can be used year after year.

These cards can be used in many different settings. I like to use the cards during my morning "Circle Time." You can either attach the shape headings to your board or put them on the floor in the middle of your circle. You can use as many headings and cards as you want depending on how much time you have and also on your children's abilities. Mix up the shape cards and pass them out to the children. Have the children take turns placing their shape cards next to the correct shape heading.

These cards can also be used for small group instruction with any children who need extra practice with their shapes. They can also be put in a center for the children to work on individually.

I hope you and your students enjoy this resource!
